

Penta

Con el afán de facilitar el manejo, hemos diseñado una nueva gama de jaulas de cunicultura familiar que nace como resultado de fusionar las características más destacadas de versiones anteriores. La principal virtud de esta nueva línea es la versatilidad, puesto que con un mismo módulo se pueden combinar distintas versiones con elementos básicos. Con este nuevo módulo existe la posibilidad de colocar los termonidos tanto en el lateral como en el frontal de la jaula, en función de las necesidades. Por primera vez se incorporan de serie nidos de quita y pon fabricados en poliestireno de alto impacto y protecciones en acero inoxidable, proporcionando un cálido entorno a los animales, una agradable manipulación y una higiene singular.

Asimismo, las tolillas metálicas de 2 huecos, de que dispone, pueden ubicarse indistintamente en el exterior o interior de la jaula, permitiendo la conversión de cada uno de los departamentos de la misma tanto para maternidad como para engorde o machos. El suministro de agua se lleva a cabo a través de bebederos automáticos logis y, en cuanto al suelo, también disponemos de dos versiones alternativas, termoplástico inyectado o parrilla de alambre galvanizada. Otro aspecto a destacar es la facilidad de montaje, puesto que estas jaulas se suministran plegadas. Además, se encuentran embaladas en plástico retráctil, preservándolas así del polvo y minimizando su volumen.

- Cod. 11143 – Aerial support enlargement.
- Cod. 11144 – Wall aerial support beginning.
- Cod. 11145 – Aerial wall support enlargement.
- Cod. 11181 – Aerial support leg.
- Cod. 11182 – Aerial wall support leg.
- Cod. 11307 – Aerial support strut.
- Cod. 10406 – Basket hook Mod. Industrial.
- Cod. 10501 – Roof lock Mod. Industrial.

Rabbit keeping Accessories

Plastic floor

Code 10785 – Made of plastic material, very resistant, comfortable and hygienic.
Measures: Length 61; width 50,5.
 10 units.

Metallic floor

Code 10261 – Made of galvanized plate, very strong and comfortable.
Measures: Length 61; width 50,5.
 Code 10326 - **Measures:** Length 61; width 54,5.

Nest bottom bucket

Code 10786 – Made of thermoplastic material. With two levels.
Measures: Length 49,5; width 24.
 20 units.

41

Sandwich for the bottom of the nest

Code 10483 –Very useful to avoid humidity inside the nesting box.
Measures: Length 42; width 25. (Milan/Canada).
Measures: Length 39; width 25 (Thermo-nest)
 27 units.

Legrest

Code 10107 – Legrest grille to provide full comfort to the animals. Made of plastic material. Adjustable to any kind of wire grille very easily thanks to its exclusive fixing system.
Measures: Length 39; width 25.
 38 units.

Butane gas burner

60 cm long. High security. It is provided with a hose of 2,5 m.
 Code 10352 – Gas welding torch-burner.
 Code 10353 – Big bottle adaptor.
 Code 10354- – Big bottle cart.

Shovel for fodder

Code 10315 – Shovel for spreading the fodder. Easy to use. Handle with two different use positions.
 Capacity: 1,5 Kg.

Rake for cleaning

Code 10266 – Metallic rake with a plastic handle, especially suitable for cleaning the collecting trays.

Thermometer / Hygrometer

Code 10311 – Thermometer of maximum and minimum with hygrometer.

Rabbit keeping

Feeders – Water Installation

42

1-hollow little Feeder

Code 10253 – Feeder-Feeder. Capacity: 1,5 Kg. Useful for male cages and replacement .
Measures: Front 10; depth 14; height 32

2-hollow little Feeder

Code 10310 – Feeder-Feeder with 2 hollows. Capacity: 3,5 Kg. Useful for females, males and replacement.
Measures: Front 20; depth 14; height 32

3-hollow little Feeder

Code 10288 – Feeder-Feeder with 3 hollows. Capacity: 5 Kg. Useful for fattening cages.
Measures: Front 30; depth 14; height 32

4-hollow little Feeder

Code 10255 – Feeder-Feeder with 4 hollows. Capacity: 7 Kg. Useful for fattening cages.
Measures: Front 40; depth 14; height 32.

1-hollow little Feeder for males

Code 11315 – Feeder-Feeder. Capacity: 2 Kg. Useful for artificial insemination male cages.
Measures: Front 15; depth 13; height 30

10-hollow little Feeder

Code 10334 – Feeder-Feeder. Capacity: 15 Kg. Service on both sides.
Measures: Front 63; width 25; height 31.

Pipe

Flexible rubber pipe.
Code 10263 - (8,5 x 13,5) 25 or 50 m.
Code 35045 - (10 x 14) 50 m.
Code 35046 - (15 x 19) 50 m.

“T” shunt and jointing

Code 10264 - “T” (10/10) 50 units. Code 10373 - Elbow (10/10) 50 units. Code 30003 - Cross (10/10) 25 units.
Code 10265- Jointing (10/10) 50 units. Code 35040 - “T” (12/12) 100 units. Code 35041 - “T” (12/17) 100 units.

Pipe

Code 10322 – Rigid round PVC tube of 22 mm to carry the water.

Coupling nut tank outlet

NEW PRODUCT

Code 10472 – Coupling nut deposit outlet made of brass.

Tank

Capacity: 30 liters. It has a float valve and an outlet coupling nut
Measures: Diameter 38, height: 37.
Code 10470-Tank.
Code 10473- Tank support.

Filter with stopcock

10 Units.

Cod. 10469 – Collapsible filter for water with a stainless steel wire mesh. Essential for automatic installations.

Rabbit keeping Drinkers

Logis Drinker for flexible tube

50 Units.

Cod. 10370 – Automatic push-rod Drinker made of plastic and stainless steel. Water supply through a flexible tube.

Logis Drinker for rigid tube

50 Units.

Cod. 10371 – Automatic push-rod Drinker made of plastic and stainless steel. Water supply through a rigid tube.

Logis Drinker with bottle

10 Units.

Cod. 10468 – Semiautomatic Drinker with a bottle of 2 l.

Mixed buoy Drinker

25 Units.

Cod. 10247 – Automatic and constant-level Drinker with float.

Mixed Drinker with bottle

30 Units.

Cod. 10248 – Semiautomatic Drinker with a bottle of 2 l.

Plastic bottle of 2 liters

10 Units.

Cod. 10295 – Bottle for semiautomatic Drinkers. Useful to give medication.

W-2000 dummy Drinker

25 Units.

Cod. 10298 – Automatic dummy Drinker for rabbits. Water supply through a tube.

Stainless steel dummy Drinker

Cod. 10297- Stainless steel valve.

Cod. 10299- Elbow extension cord.

Cod. 10268- Extension cord 55 mm.

Cod. 10267- Extension cord 90 mm.

Cod. 10279- Extension cord 120 mm.

100 Units.

Logis plastic bottle

10 Units.

Cod. 10397 – Bottle for semiautomatic Drinkers. Mod Logis. Useful to give medication.

M-73 Drinker for Rabbits

100 Units.

Cod. 35025 – Automatic Drinker with push-rod. Made of stainless steel.

LINEA MONTAÑA

Plate tubular protector

50 Units.

Cod. 35065 – Protector-fastening made of galvanized plate to be used in the tube of the Drinker for rabbits.

LINEA MONTAÑA

Plate protector with brackets

50 Units.

Cod. 35068 – Protector-fastening made of galvanized plate to be used in the tube of the Drinkers for rabbits.

LINEA MONTAÑA
